HITEX, Hyderabad

SHOW DIRECTORY 2024

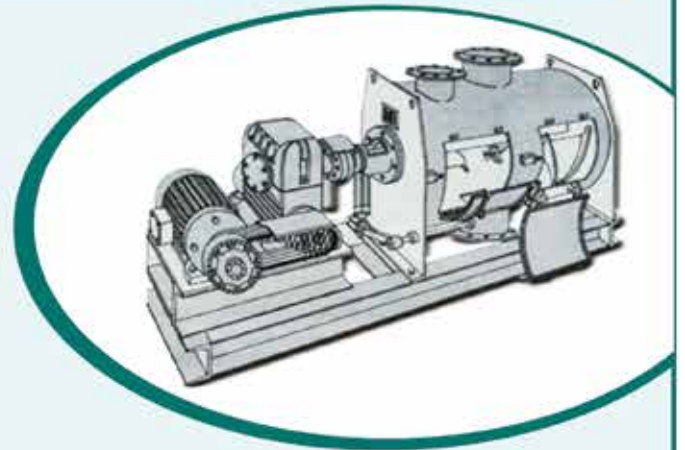

FILTROMIX
EQUIPMENTS LLP

Multi-process Equipment-plough Shear Mixer

WE HAVE DELIVERED PLOUGH SHEAR MIXER AS PLOUGH VACUUM DRYER WITH SPECIALLY DESIGNED BLADES TO CUT LUMPS FORMED AFTER DRYING FOR API IN GMP MODEL NUTRACEUTICAL & EXCIPIENT

- ◆ Powder - Powder Mixing
- ◆ Powder - Liquid Mixing
- ◆ Homogenising
- ◆ Blending
- ◆ Wet Granulation
- ◆ Multiple Phase Reaction
- ◆ Solid-Liquid-Gas Pressure/Vacuum
- ◆ Drying/vacuum drying

Unit No. 3, ACME Industrial Park, Near W.E. Highway, I.B. Patel Road, Goregaon (E), Mumbai-400063.

MD's Message

I am delighted to welcome you to the landmark 10th edition of PharmaLytica Expo 2024, taking place from May 30th to June 1st, 2024, at the HITEX, Hyderabad.

As the flagship event within South India's pharmaceutical industry, the PharmaLytica Expo is celebrating a decade long journey of excellence in providing a vital business platform for showcasing the latest industry trends, innovations, and business opportunities across Pharma Machinery & Packaging, Lab Analytical & Cleanroom, and Pharma Ingredients segments.

The Indian pharmaceutical and healthcare sectors are experiencing remarkable growth, driven by innovation, global supply chain integration, and initiatives like the National Policy on Research and Development and Innovation in the Pharma-MedTech Sector and the Ayushman Bharat programme. This growth is further supported by substantial governmental spending on pharmaceuticals, including an increase of 12.6 percent in the interim Budget this year and the allocation of Rs. 1,000 crores for promoting bulk drug parks in FY25.

Under the vital umbrella of expos such as PharmaLytica, ideas flourish and businesses thrive, driving progress within the pharmaceutical landscape,

This year, the event anticipates the participation of over 200 exhibitors showcasing more than 1000 brands, offering a content-rich conference, and abundant networking prospects. With a targeted professional audience keen to elevate the Indian pharma market to the next level of growth, PharmaLytica Expo 2024 promises to be an unparalleled opportunity for industry leaders, innovators, and stakeholders to explore the forefront of India's thriving pharmaceutical landscape.

Key industry players such as Schneider Electric, Integrated Cleanroom Technology, Nicomac Taikisha Clean Rooms, HLE Glascoat Ltd, Scientific Research Instruments Company, and Ami Polymer, among many others, will be showcasing their latest innovations and solutions. Supported by esteemed associations like BDMAI, FOPE, and Telangana Life Sciences, PharmaLytica Expo 2024 is set to be a comprehensive and engaging event.

As part of the Expo, an exclusive two-day conference with the theme "Optimizing Pharmaceutical Quality and Compliance" will bring together over 30 key industry figures for strategic discussions on the future of the pharmaceutical sector. With renowned industry speakers and insightful discussions, PharmaLytica Expo 2024 ensures valuable networking opportunities and knowledge exchange.

On behalf of Informa Markets in India, I extend a warm welcome to each of you, and I wish you a fruitful and enriching experience in this year's edition.

Best wishes,

Yogesh Mudras

Managing Director

Informa Markets in India

Conference Agenda

PharmaLytica 2024, May 30-31, 2024, HITEX, HYDERABAD, INDIA

DAY 1 – 30th MAY 2024

09:00 - 10:00	Registration & Networking
10:00 - 11:00	Welcome Address and Conference Inauguration

TECHNOLOGY TRENDS

11: 00 - 11:50	<p>PANEL DISCUSSION - MAXIMIZING PHARMA PRODUCTIVITY THROUGH TECHNOLOGICAL ADVANCEMENT</p> <ul style="list-style-type: none">• Optimizing formulation process by implementing process analytical technology (PAT) solutions, continuous manufacturing techniques and big data analytics• Leveraging AI tools for accelerating drug discovery and development• Integrating data analytics tools, advanced spectroscopic and chromatographic techniques for rapid raw material characterization and quality assurance, ensuring consistency and purity• Leveraging predictive analytics and AI-driven demand forecasting to optimize inventory, mitigate stock outs, and prevent supply chain disruptions• Deploying IoT sensors and blockchain technologies to offer real-time pharmaceutical raw material and finished product tracking and traceability <p>MODERATOR: GIRISH KAPUR, Senior Vice President & Site Head, R&D, US Pharmacopeia - India</p> <p>PANELIST : DR. SURESH PATHI, Head Operational Excellence-Formulation Cluster, Granules India DR. KRISHNA BHAVANASI, Chief Scientific Officer, Extrovis Pharma DR. DAMODHARAN MUNIYANDI, Chief Quality Officer - Global Quality & Regulatory Affairs, Sai Lifesciences GOPAL MADABHUSHI, Senior Vice President Business Leader - South Asia, Veolia Water Technologies and Solutions.</p>
11: 50 -12:20	<p>THE ROLE OF INDIAN PHARMACOPEIA COMMISSION IN SETTING PHARMACOPEIAL STANDARDS</p> <ul style="list-style-type: none">• Identifying the process for setting Indian Pharmacopoeia (IP) monograph standards• Role in ensuring the quality of medicines• Establishment of IP reference standards• Harmonization of pharmacopoeia standards, and global recognition of the IP• DR. GAURAV PRATAP SINGH, Senior Principal Scientific Officer, Indian Pharmacopoeia Commission

Conference Agenda

TECHNOLOGICAL ADVANCEMENTS

12-20 -12:40	<p>AI/ML SOLUTION FOR API MANUFACTURING PROCESS – THE NEXT GEN PREDICTION SOLUTION</p> <ul style="list-style-type: none">• How to develop and train an AI/ML model in a sequential structure• Convert unstructured data to structured data• Create data lake• Compare the data at one place• Apply statistical tools• Train the ML model.• Generate predictions• How AI/ML model can predict the potential failures in manufacturing process. A practical case study. <p>DR. DAMODHARAN MUNIYANDI, Chief Quality Officer - Global Quality & Regulatory Affairs, Sai Lifesciences</p> <p>RAJENDRA LAKSHMI PRASAD, Head Data Analytics, Sai LifeSciences</p>
12:40 - 01:00	<p>TECHNOLOGY EVOLUTION IN PHARMA WATER/WASTEWATER MANAGEMENT</p> <ul style="list-style-type: none">• Sustainable, low OPEX Cold WFI for injectables/vaccines• Advanced biological treatment for micropollutant/AMR removal• Power driven “Steam free” compact ZLDs <p>SANTHOSH HEGDE, Sales Leader - South Asia, Veolia Water Technologies and Solutions.</p>

BIOSIMILAR

01:00 - 01:15	<p>REGULATORY AND QUALITY FRAMEWORK OF BIOSIMILARS DEVELOPMENT</p> <ul style="list-style-type: none">• Biosimilars play a vital role in increasing the accessibility of Biologics drugs• Extensive analytical studies are essential to establish similarity with originator products• Critical clinical studies are needed to establish safety and efficacy of Biosimilars <p>DR. RANJAN CHAKRABARTI, Consultant, Biopharma and Drug Discovery</p>
01:15 – 02:00	<p>LUNCH & NETWORKING</p>

Conference Agenda

DRUGS REPOSITIONING STRATEGIES

02:00 - 02:20	FIRESIDE CHAT: MAXIMIZING DRUG REPOSITIONING: INDIA'S STRATEGIC APPROACH TO EXPLORING NEW THERAPEUTIC APPLICATIONS <ul style="list-style-type: none">• Insights from Case Studies like Remdesivir etc.• Benefits of drug repositioning and identifying potential drugs for repurpose• Integrating AI into Drug Repositioning Strategies, approaches methods and consideration• Identifying opportunities for cross-sector partnerships and data sharing• Understanding regulatory frameworks to support and facilitate drug repositioning MODERATOR: NALAM MADHUSUDHANA RAO , CEO, Atal Incubation Centre -CCMB, Hyderabad PANELIST: DR. TATHAGATA DUTTA , Chief Technology Officer, JODAS EXPOIM Pharmaceuticals DR. SRINIVAS ARUTLA , Chief Executive Officer, Zenara Pharma
----------------------	---

QUALITY INTEGRATION IN CLINICAL DEVELOPMENT

02:20 - 02:40	QUALITY EXCELLENCE IN CLINICAL TRIALS <ul style="list-style-type: none">• Quality centric approach in clinical trials- CRO, sponsor and ICH-GCP• Audits and inspection readiness in clinical trials• Automation in Clinical quality processes Dr. Shubhadeep D Sinha , Senior Vice President Development, Hetero Group of Companies (Hetero Labs)
----------------------	--

PHARMA PACKAGING

02:40 - 03:30	PANEL DISCUSSION: ADAPTING TO EVOLVING PHARMACEUTICAL PACKAGING STANDARDS <ul style="list-style-type: none">• Understating revised chapters USP 661 and 671 compliance and decoding revisions and Strategies to prepare for and adapt to the revised USP standards ahead of the 2025• Overview on technology advancements and how it is facilitating compliance with evolving standards, such as tamper-evident features, serialization, and smart packaging solutions• Importance of adapting packaging practices to ensure product safety and integrity, addressing concerns such as counterfeit drugs, contamination, and shelf-life extension.• Growing importance of sustainable packaging solutions in the pharmaceutical industry and how companies are integrating eco-friendly materials and practices to reduce environmental impact• Insights into future trends and advancements in developing flexible and responsive packaging solutions to anticipate regulatory changes and market needs MODERATOR: RAVIPATI CHANDI PRASAD , Head Packaging Development, Aurobindo Pharma Ltd. PANELIST: SEKHAR BABU PULI , Head - Packaging Development, MSN Laboratories RAM GOPAL , DGM Packaging Development, Aurobindo Pharma
----------------------	---

03.30 – 04.00	Tea - Coffee and Networking Break
----------------------	--

Conference Agenda

BIO-PHARMA STARTUP

04:00 – 04:20

ROLE OF INCUBATORS IN NURTURING BIO-PHARMA STARTUPS TO SCALE-UP

- Understating the need for Biopharma Startup Incubation
- Overview of Pilot or Scale-up avenues
- Understanding application processes and eligibility criteria for Government Grants and Subsidies and Overview of different funding opportunities

RAMJEE PALLELA, Chief Operating Officer, **Atal Incubation Centre-CCM**

ANALYTICAL INSTRUMENTATION

04:20 - 04:45

RECENT DEVELOPMENTS IN ICH GCP E6 R2

- History of ICH GCP
- Evolution of GCP
- Need for new guidance post pandemic situation
- Way forward to ICH GCP

DR. PANKAJ THAKUR, General Manager, **Hetero Labs**

DAY 2 – 31st MAY 2024

API

11:00 -12:00

PANEL DISCUSSION :- SHIFTING THE GEAR: STRATEGIES FOR INDIA'S TRANSITION FROM GENERIC MANUFACTURER TO API PRODUCTION HUB

- Analyzing the need for shifting focus to API manufacturing
- Identifying the innovative approaches and technologies to optimize API manufacturing processes and reduce production costs
- Role of emerging technologies such as continuous manufacturing, green chemistry, and process automation to improve efficiency, sustainability, and cost-effectiveness
- Outlining the regulatory hurdles and propose solutions for streamlining processes
- Exploring opportunities for global collaboration, partnerships, and market access agreements to promote India's API manufacturing capabilities globally
- Control strategies in complex API manufacturing

MODERATOR: SIVAKUMAR V, DIRECTOR, PharmQS Consulting (**Former Quality Lead in Pfizer & Mylan**)

PANELIST:

RAMKUMAR ESAKKI, Senior Vice President, **Suven Pharma**

BALARAM PATRO, CEO, **GRK Research Laboratories**

DR. VASANTHAKUMAR RAMU, Head of Research and Development - Peptides & Complex, API's, **Alembic Pharmaceuticals**

HIMAL P. DESAI, Executive Vice President, Supply Chain Management & Information Technology, **Sekhmet Pharmaventures**

MATRUPRASAD P, Senior Director - Regions & Program Operations & General Manager - South Asia, **US Pharmacopeia**

Conference Agenda

CRO AND CMO

12:00 - 12:20	<p>REDEFINING PHARMA PARTNERSHIPS: MAXIMIZING VALUE THROUGH STRATEGIC COLLABORATIONS WITH CMOs AND CROs</p> <ul style="list-style-type: none">• Understanding the dynamics of outsourcing in pharma• The rise of sophisticated CMOs and CROs with focus on their core competencies of drug discovery and development• Strategies for managing outsourcing relationships, mitigating potential challenges, and leveraging opportunities for growth <p>KIRAN MARTHAK, Director - Medical Affairs, Phase-1 and Regulatory Affairs, Veeda Clinical Research</p>
---------------	--

PHARMA MANUFACTURING

12:20 - 12:40	<p>EMPOWERING PHARMA MANUFACTURING WITH ADVANCED ANALYTICS</p> <ul style="list-style-type: none">• A data driven approach by Quality-by-Design (QbD) in continuous manufacturing• Role of advanced analytics in meeting regulatory standards• Optimizing ISA-88 Standards for batch control and leveraging advanced techniques for monitoring vital process parameters and detecting deviations <p>RAMKUMAR ESAKKI, Senior Vice President, Suven Pharma</p>
---------------	--

INNOVATION

12:40 - 01:30	<p>PANEL DISCUSSION: BREAKING BOUNDARIES WITH INNOVATIONS IN PHARMACEUTICAL</p> <ul style="list-style-type: none">• AI, Big Data and advanced analytics optimizing personalized medicine and patient-centric care and revolutionizing drug discovery• Data analytics tool forecasting tomorrow's medicines today• Analytics driving pharma efficiency streamlining regulatory processes, accelerate approvals, and bring life-saving therapies to market faster• Blockchain & IoT paving the way for a future of unprecedented discovery and impact• Need for robust collaboration catalysts from industry leaders, researchers, and regulatory agencies to foster innovation and drive collective progress <p>MODERATOR: DR. SUBHASH THULUVA, Sr. Vice President & Head - Clinical Development, Biological E. Limited</p> <p>PANELIST:</p> <p>DR. SHUBHADEEP D SINHA, Senior Vice President Development, Hetero Group of Companies (Hetero Labs)</p> <p>ELAYARAJA NATARAJAN, Vice President - Research And Development, Lyrus Life Sciences</p> <p>AMAN AGARWAL, Head - Digital & Analytics for Manufacturing & Quality, Dr Reddy's Laboratories</p> <p>PRAVEEN KUMAR, Senior Director, Centralized Monitoring & Medical Data Review, Fortrea</p>
---------------	---

01:30 - 02:30	LUNCH NETWORKING BREAK
---------------	-------------------------------

GREEN CHEMISTRY

02:30 - 02:50	<p>FLOWING TOWARDS GREENER PHARMA: SUSTAINABLE PRODUCTION WITH FLOW CHEMISTRY</p> <ul style="list-style-type: none">• Significance of sustainability in the pharmaceutical industry and how flow chemistry differs from traditional batch processes• Advancements and innovations in flow chemistry to address sustainability goal• Call to action for continued research and collaboration to drive sustainable practices in the pharmaceutical industry <p>DR. MAKARAND PIMPLAPURE, Managing Director, MakSpeed Technologies</p>
02:50 - 03:10	<p>LEAN & AGILE SUPPLY CHAIN: RISK & CHALLENGES</p> <ul style="list-style-type: none">• Benefits of lean supply chain• Challenges of Lean supply chain risk management• Efficient supply chain Models <p>DEEPAK KHURANA, Vice President-Procurement & SCM, Suven Pharmaceutical</p>

ANALYTICAL INSTRUMENTATION

03:10 - 03:30	<p>EXPLORING CUTTING-EDGE TECHNOLOGIES REVOLUTIONIZING DRUG DISCOVERY, FORMULATION, AND QUALITY CONTROL</p> <ul style="list-style-type: none">• Role of advanced analytics optimizing personalized medicine• Leveraging analytics to streamline regulatory processes, accelerate approvals, and bring life-saving therapies to market faster• Reducing the complexities of data governance, quality assurance, and regulatory standards with big data <p>KAMARAJ ABRAHAM, Associate Vice President, Head Quality Assurance, Aurobindo Pharma</p>
---------------	---

03:30 - 04:00

TEA - COFFEE AND NETWORKING BREAK

SUPPLY CHAIN / COLD CHAIN

04:00 - 04:20	<p>BUILDING EFFICIENT PHARMA SUPPLY CHAIN AND COLD CHAIN ENHANCING QUALITY AND ACCESSIBILITY ACROSS PRODUCTION AND DISTRIBUTION</p> <ul style="list-style-type: none">• Designing efficient sustainable transportation practices to reduce carbon emissions and environmental impact• Developing robust uninterrupted cold chain quality management systems to monitor and maintain product integrity• Risk mitigation strategies and contingency planning and building resilience through diversification, redundancy, and flexibility in supply chain operations <p>Bharat Bhushan Rathi, Head Distribution and Logistics, Mankind Pharma</p>
---------------	--

Conference Agenda

INDUSTRY OUTLOOK- PHARMA PACKAGING, LABELLING, SERIALIZATION AND TRACK AND TRACE

04:20 - 04:40

ENSURING SAFETY AND SECURITY: PHARMA PACKAGING, LABELING, SERIALIZATION, AND TRACEABILITY SOLUTIONS

- Advancements in pharmaceutical packaging design and its role in ensuring the integrity of products throughout the supply chain
- Importance of accurate and compliant labeling practices focusing on strategies to improve patient safety, regulatory adherence, and information transparency
- Enhancing Supply Chain Visibility Through Serialization and Track & Trace

PV RAJU, Senior Vice President - Procurement & SCM, **Biological E**

04:40 - 05:00

VOTE OF THANKS

Speaker Profile

AMAN AGARWAL
Head - Digital & Analytics for
Manufacturing & Quality
Dr Reddy's Laboratories

BALARAM PATRO,
CEO,
GRK Research Laboratories

BHARAT BHUSHAN RATHI
Head Distribution and Logistics,
Mankind Pharma

DEEPAK KHURANA,
Vice President-Procurement &
SCM,
Suven Pharmaceutical

**DR. DAMODHARAN
MUNIYANDI,**
Chief Quality Officer - Global
Quality & Regulatory Affairs,
Sai Lifesciences

ELAYARAJA NATARAJAN,
Vice President - Research And
Development,
Lyrys Life Sciences

GIRISH KAPUR,
Senior Vice President & Site
Head, R&D,
US Pharmacopeia - India

GOPAL MADABHUSHI
Senior Vice President Business
Leader - South Asia,
Veolia Water Technologies and
Solutions

DR. GAURAV PRATAP SINGH,
Senior Principal Scientific Officer,
Indian Pharmacopoeia
Commission

HIMAL P. DESAI,
Executive Vice President,
Supply Chain Management
& Information Technology,
Sekhmet Pharmaventures

KAMARAJ ABRAHAM
Associate Vice President, Head
Quality Assurance
Aurobindo Pharma

DR. KIRAN MARTHAK,
Director - Medical Affairs,
Phase-1 and Regulatory Affairs,
Veeda Clinical Research

DR. KRISHNA BHAVANASI,
Chief Scientific Officer,
Extrovis Pharma

MATRUPRASAD P,
Senior Director - Regions &
Program Operations & General
Manager - South Asia,
US Pharmacopeia

Description -

A&D Instruments India Private Limited (A&D India) a wholly owned subsidiary of A&D Company Limited Japan, setup its Sales and Technical Centre at Gurgaon, Haryana in the year 2008. A&D Company Limited, Japan is a world class producer of advanced measuring, monitoring, controlling and testing instruments. In India, we are responsible for promotion, sales and after sales services of A&D products like Electronic Weighing Balances & Scales, Viscometers, Moisture Analyzer, Indicators, Load cells, and Medical Products (Blood Pressure Monitors).

Product - Laboratory Products and Equipments, Purification and separation techniques, Testing and Measurement,

A.S. Automations

Hall No - Hall4 **Booth No - H21**

Contact Person - Sudhir Pangaonkar

Description -

Founded in 1999, A.S. Automations has ever since focused on developing innovative solutions for quality control on pharma packaging machines, strictly tailored to the specific needs and real practice demands as well as with economic aspects. Our continuous developments in instruments and processes ensure that the most modern technologies in electronics, optics and image processing are available. A.S. Automations offers a wide range of application specific and well-established detection systems for the control of pharmaceutical packaging. This range covers from simple control sensors to much complicated detection systems. We at A.S. Automations provide different tailor made automations.

Product - Packaging Equipment & Supplies, Process Automation & Controls

Allyone Environmental Technologies India Pvt. Ltd.

Hall No - Hall4 **Booth No - D08**

Kinam Engineering Industries, a family-owned business founded in 1981, has earned its reputation of “The Heat Exchanger Specialist” through the three core values: Top-quality Products, Happy Customers, and Outstanding Service. Fostered over by years of experience in both manufacturing and thermal designing of Heat Exchangers, Kinam has become one of the leading manufacturers of Shell & Tube Heat Exchangers (STHE), Corrugated Tube Heat Exchangers (CTHE), Spiral Heat Exchangers (SPHE), Plate Heat Exchangers (PHE) & Box Type Heat Exchangers.

Kinam has marked its presence across the globe by catering to its clientele in various countries, with industries ranging from Chemical, Petrochemical, Fertilizers, Refineries, Pharmaceutical, Biotech, Oil, Paper, Steel, Cosmetics, and Textile Industries.

With extensive research and proven results, Kinam has developed the next-generation heat exchanger “KICC”. These exchangers are most efficient when it comes to condensing applications.

Thanks to innovative designs, advanced technology, excellent manufacturing facilities, and skilled workmanship, Kinam has successfully delivered over 14,000+ systems, gaining the trust of 500+ clients on over 6 continents.

Kinam Engineering Industries has joined forces with HLE Glascoat Limited, a top process equipment manufacturer, marking a new chapter of growth and innovation. HLE Glascoat Limited is now the largest stakeholder in Kinam; this partnership will enable us to pivot to the next phase of our growth journey.

Kinam, with its remarkable achievements, continues to grow & be the leader in the heat transfer industry committed to excellence and customer satisfaction.

Products: KICC Corrugated Tube Heat Exchanger, Shell and Tube Heat Exchanger, K-SPEX Spiral Heat Exchanger, K-PEX Plate Heat Exchanger, KIC-BOX Heat Exchanger, Exchangers in Exotic Materials.

Data loggers from Testo: Precision in every application.

testo 174T

testo 175H1

testo Saveris 2

testo 176 T1

testo 184-T3

testo 160

• **testo 174T: Mini temp. data logger**

- IP 65, HACCP-compliant, 500 days of battery life.
- Measuring accuracy of ± 0.5 °C
- Measurement data memory for 16,000 readings

• **testo 175H1: Temp. and %rH logger**

- Continuous monitoring & logging of temperature, relative humidity and dew point
- External humidity probe for extra fast response
- Up to 1 million readings, battery life of 3 years

• **testo Saveris 2: Wi-Fi data logger**

- Reliable solution to humidity and temperature monitoring in cold storage, work rooms etc.
- Secure online storage of readings in Testo Cloud
- Alerts when limit values are exceeded

• **testo 176 T1: Temp. Data loggers**

- High-precision Pt100 temperature sensor
- Sturdy, EN 12830 certified & HACCP-compliant
- Memory for up to 2 million readings

• **testo 184-T3: Transport data logger**

- Monitor the transport of sensitive products, such as pharmaceuticals, food or electronic items
- Easily accommodated even in confined spaces
- Compliant with GxP, 21 CFR Part 11, HACCP and EN 12830

• **testo 160: Wi-Fi data logger**

- Ideal for monitoring indoor air quality (IAQ)
- testo 160 data loggers can monitor CO_2 , humidity, temperature, atmospheric pressure, illuminance, UV radiation.

Getac

DEVICES THAT WITHSTAND HAZARDOUS ENVIRONMENTS AND STERILIZATION

Pharmaceutical companies use tablets and other devices in clean room environments, for clean room applications which are designed to minimize contaminants like dust, microbes, and particles. These are crucial in the production, testing, and packaging of drugs and medical devices, as well as for R&D work.

Since tablets are widely used for inventory control, research, quality control, etc., it is imperative that they are duly certified and meet the applicable standards for these environments.

Getac's specialist devices (e.g. the UX10-IP rugged tablet) feature sealed buttons to allow frequent cleaning, preventing infection and cross-contamination. They meet ANSI (American National Standards Institute) safety standards, for use in potentially hazardous environments such as labs.

For more details on Getac pharma-compatible devices and demos, get in touch with authorized distributors Third Wave Rugged today!
